Experience

Freelance Full-Stack Developer (Nov 2025 – Jan 2026)

Gaurang Infotech, Swami Vivekanand Nagar No.4, Wakad, Pimpri-Chinchwad, MH 411057

- Designed, built, and deployed a complete company website using the MERN stack (MongoDB, Express.js, React.js, Node.js) with Next.js integration, featuring scalable front-end interfaces with dynamic routing and server-side rendering, robust back-end RESTful APIs, and efficient database management—resulting in a fully responsive, high-performance application currently in active production use.

Office Assistant (Jan 2023 – Mar 2023)

Varad Tax Consultant, Chhatrapati Sambhaji Nagar, Maharashtra

- Delivered administrative support in a fast-paced tax consultancy by managing client inquiries, scheduling appointments, organizing and maintaining confidential financial documents with accurate data entry, and handling paperwork and compliance tasks—ensuring efficient operations, smooth workflows, and timely deadline adherence

Projects

[AI-Based Personalized Course Generator](#)

Developed an AI platform that generates complete, personalized learning courses using Google Gemini (RAG). Enables dynamic learning paths, real-time content adaptation, and supports collaborative course customization through fork-and-merge functionality similar to GitHub.

[AI-Based Resume Analyzer](#)

Created an intelligent resume analysis system that scores resumes, performs keyword & ATS optimization, and provides AI-based improvement suggestions. Matches resumes with job descriptions, recommends relevant skills & learning paths, and suggests best-fit job roles.

[E-Commerce Website for Clothing](#)

Built a full-featured e-commerce platform with seamless shopping experience and powerful admin control. Implemented product browsing, search, favorites, cart, and secure order management. Developed an admin panel for managing users, products, categories, and reviews.
